

IET Communications Call for Papers

SPECIAL ISSUE ON: Smart Space Technological Developments

Smart Space (SS) represents an advanced communication environment featuring daily-life objects that continuously involve non-expert users. SS has rapidly emerged as an exciting new development paradigm which integrates different active research fields such as ubiquitous, grid and P2P communications providing new exciting seamless service applications for next generation smart space environments.

This special issue aims to address system and network issues of SS communications. It will solicit original research papers on topics including effective context extraction and representation, context-based services, integration of legacy systems and services, security, business models and novel applications of SS utilization.

Topics include but are not limited to:

- smart home and smart office concepts
- smart building applications and services
- wireless sensor and RFID application for SS
- network middleware and protocols for SS
- WSN and context awareness model for SS
- power-aware computing for SS
- smart and personal devices for SS
- multimedia security and services in SS
- security issues and applications of SS
- health and social application for SS
- commercial and industrial application for SS
- distributed sensor systems of SS

All papers must be submitted through the journal's Manuscript Central system:
<http://mc.manuscriptcentral.com/iet-com>

Proposed publication schedule:

**Deadline for submission of
papers:** 01 July 2010

**Authors to receive a
1st decision by:**

01 November 2010

Final notification of acceptance:
January 2011

On-line and print publication:
Q1 2011

Special issue guest editors:

Prof. Jong Hyuk Park
Seoul National University of Technology, Korea
E: parkjonghyuk1@hotmail.com

Prof. Mieso Denko
University of GUELPH, Canada
E: denko@cis.uoguelph.ca

Prof. Paolo Bellavista
University of Bologna, Italy
E: paolo.bellavista@unibo.it

Prof. Yueh-Min Huang
National Cheng Kung University, Tainan, Taiwan
E: huang@mail.ncku.edu.tw
