GUIDE TO ORIGINALITY/COPYRIGHT SPECIFICATIONS FOR PAPERS PUBLISHED BY THE INSTITUTION OF ENGINEERING AND TECHNOLOGY

All IEE journals are now published by the Institution of Engineering and Technology (IET), a new institution formed by the joining together of the IEE (The Institution of Electrical Engineers) and the IIE (The Institution of Incorporated Engineers). The new institution is the inheritor of the IEE brand, products and services.

The procedures and requirements for the publication of papers submitted to journals published by the Institution of Engineering and Technology are described below.

The Institution of Engineering and Technology must be in receipt of a completed and signed Publication Agreement and Assignment of Copyright form (page 3). Without this, the Institution of Engineering and Technology is unable to proceed with publication.

Copyright

1. It is a requirement of Bylaw 86 of the Institution of Engineering and Technology that every paper presented to the Institution of Engineering and Technology and accepted for publication and the copyright therein shall be the property of the Institution of Engineering and Technology.
2. The copyright of the paper must be assigned to the Institution of Engineering and Technology by means of the Publication Agreement and Assignment of Copyright (page 4).
3. Where the author(s) is/are employed by the Crown, or if for any other reason the Crown has any rights in the paper, then having regard to the provision of Section 163 of the Copyright, Designs and Patents Act 1988, the author(s) must obtain permission to publish from the Controller of HM Stationery Office. Other consents may also be required.
4. In the U.S.A. copyright protection is not available for 'works of the U.S. Government' i.e. a work prepared by an officer or employee of the U.S. Government as part of that person's official duties, or on behalf of the U.S. Government. Such work can be freely copied in the U.S.A., and copyright in it cannot be claimed by a publisher. Similar provisions may apply to work done by Government employees in other countries.
5. If the copyright of the work is owned by the author(s), the Agreement should be signed and dated by the author(s) at space A. (The author(s) assert(s) to the Institution of Engineering and Technology that he/she/they has/have the moral right to be identified as the author(s) of the work in accordance with the Copyright, Designs and Patents Act 1988).
6. If the copyright of the work is owned by the organisation which employs the author(s) or which has commissioned the work on which the paper is based, an authorised representative of that organisation should sign and date the Agreement at space B. (Note that when a work is made by an employee in the course of employment, the employer is the owner of any copyright in the work, but subject to any contractual variation of this position, agreed between the employer organisation and the employee author(s).)
7. If it is not possible or impracticable for all authors to sign the 'Statement of Originality' and the 'Publication Agreement and Assignment of Copyright', the corresponding author may sign on their behalf. In doing so, the signatory confirms that all authors have given their permission for the signatory to act on their behalf.
8. The organisation in assigning the copyright in the paper gives no warranty expressed or implied that the paper is free from defamatory matter, nor that the paper does not infringe the rights of any third party.

9. The organisation warrants that it:

a) has advised the author(s) of his/her/their responsibilities to avoid defamation or infringement of third party rights, and

b) will notify the Institution of Engineering and Technology of any adverse claim that comes to its knowledge prior to publication.

10. Nothing in the Agreement shall in any way affect any agreement which the organisation may have with any of its employees or others performing work for or on its behalf.

11. The author(s) and/or the organisations for whom the work was performed shall be entitled:

a) to retain all proprietary rights other than the copyright such as patent rights;

b) to reproduce figures and extracts from the paper with proper acknowledgement to the Institution of Engineering and Technology;

c) to reuse all or portions of the paper in other works with proper acknowledgement to the Institution of Engineering and Technology;

d) without payment to make and have made copies of the published paper for his/her/their/its own purposes but not for sale, provided that no reference is made to the Institution of Engineering and Technology in any manner which implies endorsement by the Institution of Engineering and Technology of any product the organisation manufactures or in which it deals.

12. If the Institution of Engineering and Technology declines to publish the paper, the copyright in the paper will remain with the original copyright owner(s). If the paper is accepted for publication but is not published within a reasonable time after acceptance, the copyright owner(s) will have the right to require the Institution of Engineering and Technology to reassign the copyright in the paper to the original owners

PUBLICATION AGREEMENT AND ASSIGNMENT OF COPYRIGHT

Paper No: ELL-.....

Title:.....

Author(s):

I/We being the owner(s) of the copyright in the above mentioned Paper ("the Paper") hereby submit the same to The Institution of Engineering and Technology ("The Institution") with a view to publication thereof (or as the Paper may be amended on re-submission) by The Institution. In consideration of The Institution agreeing to consider the Paper for publication, I/We (jointly and severally) warrant:

(a) that I/we am/are the Proprietor(s) of the copyright in the Paper, and conditional upon the IET agreeing to publish the Paper I/we, as Proprietor(s) and Beneficial Owner(s), hereby assign all Copyright, including rights in electronic publishing, in the above paper to the IET subject to the provision of paragraph 10 and 11 of the instructions attached hereto;

(b) that the Paper is a work of the U.S. Government and in the Public Domain.

(delete (a) or (b) above as necessary. Please use form STM/1 if the paper is Crown Copyright)

A To be signed by the author(s)

Signature(s):.....

Date:.....

or B To be signed by an authorised representative of an organisation when it owns the Copyright

Signed by:.....

for and on behalf of:.....

Date:.....
